

PNEUMA SY

Pneumatic tools

TOTAL

Anti-freeze oil for pneumatic tools.

APPLICATIONS

Pneumatic tools

- Percussion air tools, all sound proof pneumatic tools.
- Non miscible with conventionnal mineral oils.

ADVANTAGES

Long lasting equipment

- High impact strenght due to the extreme pressure additivation preventing the equipment wear.
- Water repellent.
- Antirust.

Allows the soft running of the equipment

- Prevents the ice build up at air tool exhaust.
- Low pour point.

TYPICAL CHARACTERISTICS	METHODS	UNITS	PNEUMA SY
Density at 15°C	ISO 3675	kg/m ³	1090
Kinematic viscosity at 40°C	ISO 3104	mm ² /s	17
Kinematic viscosity at 0°C	ISO 3104	mm ² /s	88
Pour point	ISO 3016	°C	< - 40
pH		-	8,2

Above characteristics are mean values given as an information.
