

RAVENOL Cockpit-Spray

ART.-NR. 1360031

400 ml | 1360031-400

RAVENOL Cockpit-Spray is used to clean and care for the plastic components in vehicle interiors, for installing plastic components and for stiff seatbelts.

RAVENOL Cockpit-Spray dissolves dirt and attracts fine particles of dust. It is necessary to polish the surfaces after use in order to mechanically remove deposits from the surfaces and to distribute the product.

RAVENOL Cockpit-Spray creates a lubricating and caring film which is non-greasy, does not stain, is fully synthetic and leaves surfaces gleaming, offering treated surfaces protection against UV rays and oxidative ageing caused by intense sunlight (e.g. it protects against crack formation, drying out and bleaching). The treated surfaces will remain dust free for longer.

RAVENOL Cockpit-Spray will get rid of creaking and squeaking noises coming from plastics and switches. It also prevents door seals from freezing.

RAVENOL Cockpit-Spray is silicone-free and uses environmentally-friendly propellant.

Application Notes

RAVENOL Cockpit-Spray should be shaken well before use. Spray on surfaces and wipe quickly with a lint-free cloth to achieve a uniform distribution and to remove dust and dirt.

In the interests of safety do not spray on wheels, steering wheel, pedals and seat cushions.

Characteristics

RAVENOL Cockpit-Spray offers:

- Cleaning and care
- Universal use for all plastic surfaces
- Makes surfaces gleam
- Protects treated surfaces from UV rays and ageing caused by intense sunlight
- Protects surfaces from crack formation, drying out and bleaching
- Gets rid of creaking and squeaking noises coming from plastics and switches
- Prevents vehicle door seals from freezing
