PORSCHE OIL NO. 999.917.080.00 | BMW 8322 2167 666 (MTF LT-5) | MB 236.24 (A 002 989 04 03)

RAVENOL PDK Fluid is a fully synthetic automatic transmission oil ATF with low viscosity and with special additives and inhibition to ensure the proper operation of the automatic Transmission.

RAVENOL PDK Fluid was specially developed for Porsche Doppelkupplungsgetriebe (Dual clutch transmission). In addition, it meets the requirements of the S6-35 / S6-45 manual transmissions used by BMW and Mercedes Benz.

RAVENOL PDK Fluid guarantees maximum wear protection in all operating conditions.

Characteristics

RAVENOL PDK Fluid offers:

- Very good lubrication even at low temperatures in winter
- · High, stable viscosity index
- Very good oxidation stability
- · Extensive protection against wear, corrosion and foaming
- Excellent friction coefficient
- · High thermal and oxidative stability
- Excellent cooling performance

RAVENOL special transmission fluid is special development for special gear and cannot be selected on the basis of technical parameters (viscosity, etc.). Therefore the decision was made not to give technical data. Please note: RAVENOL special transmission fluid is exclusively to apply under the original number, as indicated in the

product information. Not sure of the correct transmission fluid, you can ask your garage or the car dealer with respect to the original OEM gear type and number or consult

our advisers. It must be specified the VIN code (Vehicle Identification Number) of your vehicle. Misapplication of RAVENOL special transmission fluid can lead to

malfunction of the transmission shifting problems, increased fuel consumption, unwanted slip behavior, etc. cause and cause the failure of the transmission. Ravensberger
