

Kixx Geartec FF GL-4

Top Performance Transmission & Transaxle Fluid for FF Vehicles
API GL-4, MIL-L-2105D

DESCRIPTION

Kixx Geartec FF GL-4 is a high-performance gear lubricant suitable for transaxle of FF vehicles (front engine front wheel drive). Especially, it is suitable for the transaxle of FF vehicles that need high quality gear lubricant which provides outstanding oxidation resistance under extremely high temperature conditions as well as excellent shear stability. Kixx Geartec FF GL-4 is made from high quality base oils and additives which provide wear resistance, oxidation stability, anti-rust and anticorrosion qualities as well as excellent shear stability.

PERFORMANCE STANDARDS

- API GL-4
- MIL-L-2105D

CUSTOMER BENEFITS

- Reduces operating costs by minimizing wear and extending equipment life.
- Long service life by resisting oxidation and oil thickening.
- Protects against corrosion of ferrous and non-ferrous components.
- Protects gears in severe service through its excellent load-carrying and EP properties.
- Lubricates effectively over a wide temperature range.

KEY PROPERTIES

SAE Grade	75W-85
Density, kg/L @15°C	0.87
Kinematic Viscosity, mm ² /s @ 40°C	72.35
Kinematic Viscosity, mm ² /s @ 100°C	12.32
Viscosity Index	169
Pour Point °C	-40
Flash Point °C	210
Package (Liters)	1,4T,20,200
