## PRODUCT INFORMATION

## **HIGHTEC GREASEGUARD CLS 00/000**

Premium, semi-fluid grease based on lithium soap with corrosion protection and extreme pressure additives. Suitable for use in central lubrication systems with long cable paths and in commercial vehicles.

#### Description

HIGHTEC GREASEGUARD CLS 00/000 is a semi-fluid grease produced using selected base oils and lithium-based thickeners with good corrosion protection and chemically-acting EP additives.

### **Application**

HIGHTEC GREASEGUARD CLS 00/000 is used as a semi-fluid grease to lubricate industrial systems, even in the open, and commercial vehicles. Due to its good flowability, all areas are supplied with fresh grease, even in the case of long cable paths and at low temperatures.

#### The quality of this product is equivalent to EU regulations

- DIN 51 502/51 826: GP 00/000 K-50
- T[°C]: -50 ... +120
- T[°F]: -58 ... +248

# Additionally this product is recommended when the following filling instructions are required

- MB 264.0
- MAN 283 Li-P00
- Willy Vogel
- Lincoln
- Tecalamit

#### **Benefits**

- Operating temperature range from -50°C to +120°C
- · Very good flowability
- Good wear protection properties
- Good resistance to oxidation
- Increased pressure absorption capacity
- Good corrosion protection
- · Good resistance to water

#### **Notices**

If stored appropriately in originally sealed containers in a dry place, away from direct sunlight and at temperatures between 10°C and 30°C, the minimum storage period is 24 months.

A safety data sheet is available upon request for information on health, safety and environmental aspects. A little oil separation is caused by the product's attributes and harmless.

It is desirable to a certain extent to ensure lubrication, and no indication of inferior product quality. The separated oil can be incorporated again homogenously by folding it in comprehensively.
