

# Havoline<sup>®</sup> Energy

## SAE 0W-20

Proven performance synthetic fuel economy engine oil

### Product description

Havoline Energy SAE 0W-20 is a proven performance mid SAPS synthetic fuel economy engine oil, specifically formulated to meet Volvo RBS0-2AE engine lubrication requirements.

Havoline Energy SAE 0W-20 is designed for use in diesel and gasoline passenger car engines as well as light duty commercial vehicle diesel power units, and is a mid SAPS formulation, designed for fuel economy.

### Customer benefits

- Mid SAPS formulation designed for improved fuel economy in vehicles where 0W-20 engine lubricants are recommended
- Proven anti-wear additive technology promotes robust low viscosity wear protection, extending engine service life
- Advanced cleaning additive system helps minimise deposit and sludge build-up extending engine life and maintaining fuel economy
- Low temperature fluidity promotes fast lubricant circulation and engine wear protection at cold start-ups even under arctic conditions

### Product highlights

- **Designed for improved fuel economy**
- **Promotes robust engine protection**
- **Helps minimise deposits and sludge**
- **Formulated for arctic cold start protection**

#### Selected specification standards include:

ACEA

Volvo

## Applications

- Havoline Energy SAE 0W-20 is suitable for a large number of gasoline and diesel passenger cars and light diesel vans - with or without turbochargers. This especially designed low friction, low viscosity oil (A1/B1 respectively C5) provides extended drain intervals in Europe.
- Havoline Energy SAE 0W-20 is designed for the new Volvo passenger car VEA (Volvo Engine Architecture) Drive-E power train generation requiring Volvo RBS0-2AE engine oil

Havoline Energy SAE 0W-20 is unsuitable for some engines. Consult owners' manual or handbook if in doubt

## Approvals, performance and recommendations

### Approvals

- Volvo RBS0-2AE

### Performance

- ACEA C5, A1/B1

Typical test data		
Test	Test Methods	Results
Viscosity Grade		SAE 0W-20
<b>Shelf Life: 60 months from date of filling indicated on the product label</b>		
Density, 15°C, kg/l	ASTM D4052	0.848
Visc, Kinematic, 40°C, mm <sup>2</sup> /s	ASTM D445	48.6
Visc, Kinematic, 100°C, mm <sup>2</sup> /s	ASTM D445	9.2
Viscosity Index	ASTM D2270	175
Pour Point, °C	ASTM D5950	-48
Flash Point COC, °C	ASTM D92	224

The typical test data set out above does not constitute a specification. It is indicative only and can be affected by allowable production tolerances. Chevron may modify this test data. Modified data will supersede all previous data, so please ensure you refer to the latest version of this Product Data Sheet (PDS).

**Disclaimer: Data provided in this Product Data Sheet (PDS) is based on standard tests under laboratory conditions and is indicative only. This product should not be used for any purpose other than those expressly set out in this PDS. The user has sole responsibility for verifying that this product is suitable for the user's intended application. Neither Chevron nor its subsidiaries (i) make any warranty or representation as to the accuracy or completeness of this PDS; and/or (ii) accept liability for any loss or damage suffered as a result of the use of this product other than in accordance with the terms of this PDS.**

When disposing of used product, take care to protect the environment and follow local legislation.

Safety Data Sheets (SDS's) are available for all Chevron products. If you require a SDS or any further information regarding a Chevron product, please contact your local sales office or see [www.texacolubricants.com](http://www.texacolubricants.com).
